

PROJECT: EMORY CAMPUS LIFE

CUSTOMER: HOLDER CONSTRUCTION COMPANY

ARCHITECT: DUDA PAINE ARCHITECTS LLP

LOCATION: Atlanta, GA

JOB NUMBER: 6806

ERECTION DRAWING GENERAL NOTES:

- The shop drawings and erection details for the specified project above have been prepared by Peachtree Protective Covers, Inc. (PPC). The supplied drawings are based on the Architect's contract documents provided to PPC by the Architect and/or General Contractor. The drawings are submitted for review by the Architect and General Contractor. Before additional work commences on the project or any material orders placed, **Approved drawings** must be returned and received by PPC.
- All plans, elevations, sections and details have been drawn to best interpret the intent of the contract drawings and installation of the PPC Panel System.
 - The drawings shall be reviewed by the Architect and General Contractor for proper coordination with other trades.
 - Any areas that are unclear or need additional information in the contract drawings will be noted and/or clouded on the shop drawings.
 - All clouded /and or noted items must be addressed and drawings must be approved before material is ordered. Any items not addressed will assume to be correct as detailed.
 - Any area or item noted as "By Others" or "Not By PPC" are not part of PPC's scope of work. PPC is not responsible for any errors resulting from the use of these drawings by other trades.
- The substructure should be inspected before installation begins. The substructure and any additional framing, sheathing, or other material adjacent to panels shall not exceed 1/4" out of plane with-in a liner span of 10 feet. Any areas not within tolerance may delay the progress and must be addressed immediately.
- PPC will take field dimensions based upon job criteria. If field dimensions are required to be taken by PPC, the job site must be clear and ready for the necessary equipment. Documentation must be provided to PPC to verify the area is complete with all needed framing and adjacent materials for field verification. PPC is not responsible for any delays caused by failure of the General Contractor to supply requested documentation. If contractor insists upon PPC taking field dimensions when site is not ready, contractor will be responsible for ANY dimensions not able to be inferred at time of PPC measuring OR be subject to additional costs from PPC for additional field measuring.
